NEW YORK TRIBUNE.

Recognized as a Leader of Republican Opinion.

The New York Tribune offers to the public a newspaper which is absolutely representative of the best opinion in the country on all national issues. It is dignified, strong, complete and reliable.

The Daily Tribune is \$10 a year. The Week, \$1.81, can be obtained, in conjunction with various local papers, on more advantageous terms. The Semi-Weekly is \$2 a year.

A Newspaper and Magazine both.

The Semi-Weekly Tribune, printed Tuesday and Friday, is one of the best general newspapers in the country for a wide-awake farmer, professional man, or merchant.

It saves the necessity of buying other newspapers. It supplements admirably a local daily; many people take it in place of one.

The agricultural page will contain this year, in addition to regular features, a weather review, many descriptions of the actual results obtained in small farms, and other matters of particular use to gardeners, fruit-growers, farmers, dairymen and live-stock raisers.

Stories of the War with Spain.

During each week the reader will find a column of "Questions and Answers," letters from correspondents in London and Paris; a page devoted to science and mechanics; home intelligence and other things which interest women, including the "Travels of a Woman," some of the most interesting and reliable of the world's travel stories; and a column of "The World's News," containing the latest news from all parts of the world.

Market Reports the Standard.

The market reports will be their present high standard. It is the intention of The Tribune at all times to add to them whatever quotations will make them more complete and valuable.

The Tribune is the only paper that employs the subscriptions of a large number of merchants, druggists and farmers who disagree with its political sentiments, but who find its accurate market reports essential to the proper conduct of their business. It is always safe to look at The Tribune before one buys or sells country produce. Once a week there is a special market article on one particular article.

Pictorial Supplement.

With Friday's number there is an illustrated supplement, 24 to 32 pages, printed on specially fine paper, full of delightful reading, enriched with from thirty to fifty half-tone or other pictures. Every reader admits that this Supplement is equal to a magazine in the contents, and better than a magazine in being quicker to lay before its readers perfectly fresh descriptions of matters which are attracting attention. Sample copies of Friday's issue will be sent free on application. The Supplement contains two pages of humor; a fascinating letter from Dr. Atkinson, a gentleman who has served at many of the great courts of the world, and who speaks of kings, emperors and nobles from actual knowledge; book reviews; short stories; dramatic and musical criticism; the fine work of great artists and artists' letters from abroad; talk on scientific subjects, new warships, etc., given by pungent writers; and, in fact, the whole range of higher topics in which intelligent men and women are deeply interested, and a profusion of beautiful illustrations. The Supplement is the crown of the whole work in The Tribune office.

Clubs.

Any reader who may find it convenient to raise a club of subscribers for The Semi-Weekly Tribune is invited to do so, and to send to this office for sample copies, etc.

You folks who have been buying carpets here for so many long years will now find a furniture department that will aid you wonderfully in the road of true economy. As you buy carpets so you will buy furniture, and all are governed by the littleness of prices which department dry-goods stores are noted for. Remember, the largest dry-goods store in Trenton today would not hold our furniture and carpets alone, nor begin to hold them. There's six immense floors now for these goods, and the stock is spick and span new—new prices too you will find after you have examined—newly low prices.

DOYLESTOWN.

Doylestown ought to feel improved spiritually if Lenten services are conducted to bring about such a desirable condition. There has been held here a series of interesting services during the past few weeks. A great many people have been especially interested in the sermons delivered by Venerable Cyrus T. Brady, Archbishop of Pennsylvania, who has been preaching on Wednesday evenings during Lent in St. Paul's Episcopal Church. Archbishop Brady's eloquence and personal magnetism, the patriotism of the Brady family as evinced in the late war, and the fact that the Archbishop is the author of a popular book, have all combined to arouse special interest in his sermons, without regard to sect or creed. Consequently the church has been crowded. Some of the subjects upon which the Archbishop preached were "God in Nature," "Christ and the Resurrection," and "Christ and the Atonement." Each was a masterly discourse. Services have also been held in the other churches. In addition to this a series of annual meetings of a sociological reform institute began on Monday evening. The program provides for meetings in the various churches. The institute was conducted by Prof. J. R. Dill, of Philadelphia, field secretary of the National Reform Association. The saloon, the public school and science of government were among the subjects for discussion in the form of lectures, in which Prof. Dill was assisted by clergymen from Philadelphia. Rev. N. C. Fetter, Rev. James R. Bergey and John L. DuBois, Sr., constituted the local committee. That the views of some of the speakers were pretty radical was shown by the fact that they were prepared to argue that the liquor laws of the State are unconstitutional and should be so declared by the Supreme Court.

TULLYTOWN.

If you were a native of Tullytown, just beginning to creep out and sniff the fresh air after a bleak and cold winter, and if you saw, day after day, a number of silent men with wheelbarrow loads of stuff industriously wheeling down the west bank of Tullytown creek and returning with empty barrows, and if you saw that Capt. William Lovett was renewing his activities and journeying up the creek to the foot-bridge every morning, crossing and disappearing around the point, you would know that Spring had come and that the dead season was at hand, for the silent men have mended their nets and are carrying them in barrows to the net pens near the wharf, and Captain Lovett is clearing the shore preparatory to fishing at Mr. Burton's fishery.

These preparations tend to whet the appetite of the resident along the river, so that his soul longeth for that most appetizing and toothsome viand that the old Delaware river produces, the up-river shad. There are other shad earlier in the markets, but these Tullytowners spurn them, for they know that the only shad possessing the proper flavor for their epicurean tastes are those that have swam up the river against tide and current through sixty odd miles of fresh water and thus acquired a peculiar delicacy of flavor which the upper Delaware shad possesses.

Some of the boys are already on the river drifting, in hopes of catching the first shad of the season, and the rest of the community will be glad when he and his fellows arrive; when the dark waters of the Delaware shall be nightly studied with slowly moving stars, and the stillness of the night shall be broken by the distant shouts of the fishermen as they guard their nets. For these are tokens that the hard, cold, pinching poverty of a severe winter is past, for the shad have commenced to run; the glad springtime is here; the gold has commenced to flow into the pockets of the toiler and the women and children who have been cold and hungry many times through the long winter, will rejoice in plenty. Why should not the dwellers along the Delaware rejoice when the shad begin to run?

The regular meeting of the William Penn Building and Loan Association was held on Monday evening. Enough of the second series have taken advantage of the special three per cent. loan to nearly exhaust the surplus funds that were lying idle in the treasury.

Anthony Burton, a well-known farmer of Falls township, recently met with a very serious and painful accident while sawing wood on his farm with a circular saw. His right hand came in contact with the saw and was mangled in a terrible manner, the thumb being entirely cut off.

A large number of bushels of onion sets stored by the growers in their barns were ruined by the extreme cold weather of last month and are a total loss. The onions will stand a certain amount of freezing, but when it comes to 8 or 10 degrees below zero they are spoiled unless stored in frost-proof buildings.

Mr. Cohen, a Trenton "crookery merchant," recently came to grief on Manor Line avenue, near the corner of "Mike's Lane." His horse became suddenly frightened and upset the wagon, breaking off one of the wheels and almost completely annihilating the dishes. After making the necessary repairs he proceeded on his way the next day with the few saucers and a bag of rags that had been saved from the general wreck. Mr. Cohen says this is the second time this year that his horse has played him this kind of a trick and that if the horse keeps on he thinks he will yet live to be a poor man.

"Let parents not live for their children, but with them." The mother should allow no false modesty to stand in the way of her possibilities, of her perils. For over thirty years Dr. Pierce has used his "Favorite Prescription" as a strengthener, a purifier, a regulator. It works directly upon the delicate, distinctly feminine organs, in a natural, soothing way. It searches out the weak spots and builds them up. Moving Pictures at the Risk.

The cinerograph entertainment and concert given under the auspices of Court Ward, No. 89, Foresters of America, at the risk last evening was a success in every particular. The reproduction of the first five rounds of the Sharkey-McCarty fight was very realistic and the audience was highly pleased. The war scenes were numerous and brought forth much applause. Some very good stereoscopic views were alternated with the moving pictures to rest the eye, and there were also a few songs by the Colored Jubilee Singers of Bristol and several selections on the graphophone. This evening the balance of the Sharkey-McCarty fight will be shown, together with a number of excellent war scenes. There will be about twice the number of moving pictures this evening and it will be well worth seeing. Tomorrow evening the "Passion Play" will be given, and a large attendance is expected. Success to His Venture.

It is said that if Editor Haldeman, of Halmerville, can make the Telford Star a success he will sell the Halmerville News to the Danbys and remove to Telford. Every town on the North Penn Railroad between Jenkintown and Quakertown will then be supplied with a local paper. Telford has long been the field for many printers' hurrying—some of them, however, have been driven out by the success of the Halmerville News. It is also been the neutral territory in which to scalp prices and make a fortune. We hope to see Mr. Haldeman win out and establish himself. Telford is on the boom. Six double houses there now. It is full of good people—lively, watchful and sagacious. There is a paper there now, the Montgomery County Press, but Mr. Schupe, the editor and publisher, is not as young as he used to be, and is generous enough to view the new Star through kindly spectacles.

THE NEW POKONOKET.

PROMINENT TRENTON BUSINESS MEN IN THE NEW COMPANY—RAPID SERVICE FOR BRISTOL.

Bristol this summer will have better steamboat service to Trenton and Philadelphia than ever. Besides the many handsomely equipped and freight steamers of the Upper Delaware River Transportation Company, which will run as heretofore, another wealthy corporation will have a fast boat on the river.

The Trenton and Philadelphia Transportation Company, which has come into possession of all the property of the old Inter State Steamboat Company, will continue the trips of the Pokonoket, which was tied up in Philadelphia on account of litigation.

The new company is well fixed financially, the officers being president, Thomas H. Thropp, the treasurer of Mercer County, and treasurer, John E. Thropp, Jr., who, with their two brothers, Peter D. Thropp and Frank W. Thropp, are equally interested. The vice president is Charles A. May, of the Matlock Pottery Company, who is also Water Commissioner for Trenton. The Sheriff of Mercer County, Harry A. Ashmore, is the secretary. With Captain George F. Tyler for manager, who everybody in Bristol knows as a most courteous and energetic business man, it will be seen that the new corporation is a strong one and thoroughly capable of giving the traveling public a quick and efficient service.

The company would like to land its boats in Bristol at the Walnut street wharf, opposite the Gazette office, and its application for the lease of that wharf is now held under consideration by the Borough Council. If the lease is made the company will immediately improve the wharf by extending it further out in the river on pilings so as not to obstruct the current, and erect thereon an ornamental waiting room and shed for passengers.

The Pokonoket was always considered a fast boat, but new improvements are being made upon her which will very materially increase her speed.

The steamer is now at Bordentown undergoing extensive repairs. She has been thoroughly scraped from stem to stern and will receive two coats of paint besides having almost entirely new furnishings throughout. The engines are practically new, having been rebuilt at the works of the John E. Thropp Sons Company at Trenton. They are of the balanced compound style, made by that company and are arranged as twins for propelling the two screws, which are now being made of steel.

The screws are of a trifle different shape from the former ones and are a little larger.

A Worthy Servant.

EDMUND GAZETTE—As the term of the present postmaster has almost ended we doubt if there can be found one person in our borough who can say anything detrimental to the business methods by which the office has been conducted during the past four years. No matter who had business to transact at the post office, whether man, woman or child, they were all treated with the utmost civility and respect. The present incumbent was always at his post, mails were handled with despatch and no matter how often he was called upon to answer seemingly unnecessary questions, he never lost control of his temper. Well can it be said that he was the right man in the right place. It is hoped that at the expiration of his successor's term the same encomium can be passed upon him as upon Jacob M. Winder. It would seem that some testimonial from our citizens should be tendered to our retiring postmaster. Even a banquet would not be amiss. Let us all say "Well done—good and faithful servant."

One of the greatest opportunities for pension frauds has been abolished. In the future a widow cannot draw a pension unless she marries the old man "prior to or during the military or naval service of the veteran on account of whose service the pension is asked or claimed." Under this law a woman who marries a veteran after he has performed the service for which he may claim a pension cannot herself obtain a pension on his death. This will stop such injustices as that shown now in the pension roll, where there are 2,407 widows drawing pensions on account of the war of 1812, although there are only three survivors of that war now living. The bill also provides that in future the widow in order to get a pension must have lived from the time of the marriage with the veteran until the time of his death, which will shut off divorced women from claiming pensions as they do now. A move has thus been made in the right direction. The pension list is far from being a roll of honor. Thousands of perfectly healthy and able-bodied ex-soldiers are living upon the bounty of the government. The time is coming when the list will have to be necessarily purged of all dishonest entries.

Quay Delegates Elected.

(Special Correspondence.)

Harrisburg, March 21.—Stalwart Republicans of Pennsylvania have taken the case of the senatorial caucus boken in hand and wherever an opportunity presents itself to publicly rebuke their action it is done in a most appropriate and emphatic fashion. Legislators who returned here yesterday from their home districts are unanimous in testifying to the intense feeling of hostility that exists among Republicans in the hands of the anti-Quayites who have been beaten two to one. Here, too, the supporters of Colonel Quay won out handsomely, their candidate for delegate to the state convention, Captain Rothermel, an old soldier, sweeping everything before him. The anti-Quay candidate did not carry a single election precinct in the county. Next came Warren county, where ex-Congressman C. W. Stone resides, and where the anti-Quay men declared that the Beaver station's friends might as well make no effort to win as they had not the ghost of a chance any how. Here, again, the two delegates elected to the state convention, Messrs. W. S. Pierce and W. R. Rice, are warmly connected with the anti-Quay cause. The most complete knockout given the combiners was in Blair county. Through peculiar manipulations of the combiners against the expenditure of large sums of money, the delegates from the anti-Quay cause in the last four times been opposed to the regular Republican organization in the state. A great effort was made this time by the same influences to keep the county in the combiners' column. When, as he did in 1896, the anti-Quay cause was defeated at the fight, he was accompanied by Koonitz, of Somerset; Henry, one of David Martin's men, from Philadelphia; Weller, of Bedford, and other bolters of the Republican caucus. They made a number of speeches for the anti-Quay cause. The primaries came off last Saturday. The result was a sweeping victory for Colonel Quay's friends, two of the three delegates elected to the state convention being publicly pledged to the Quay organization and the other, although not actually committed to either side, can be counted upon to go along with the organization. The victory was more than State Chairman Elkin and the other organizers could have counted upon. They practically left the direction of the fight to their friends in the county and did not give them any outside assistance. The anti-Quay men are in a very bad way over this licking. They say they have been beaten by the anti-Quay cause. On the heels of these crushing defeats of the anti-Quay men of party wreckers came the news from Delaware county, where the anti-Quay men have thrown up the sponge and withdrawn all opposition to the anti-Quay cause. The delegates for delegates to the state convention. The primaries take place next Saturday. They were picked out by leader Matthews, who is a supporter of Senator Quay and who is the recognized head of the anti-Quay organization in Delaware county.

A Remedy for Snow Drifts.

The recent blizzard demonstrated a fact that should not be disregarded. When a severe drifting snowstorm comes the roads fill up to the top of the fences, while the fields are swept clear, thus forcing all travel through the latter. A remedy for this has been discovered. It is the substitution of wire fences for the old-time rail or board fences. The effect of this was clearly shown at Penn Valley and in that vicinity. From John R. Breese's store to Morrisville there are no fences on one side of the road. On Monday after the blizzard the Trenton delivery wagons were all able to get as far as Penn Valley but no farther on account of the fences on each side, which caused the drifting snow to fill the road to the fence tops. The division road running past the property of Postmaster William Watson at Penn Valley from the pike west was clear of drifts during the late storms for the first time in Mr. Watson's recollection. He attributes this entirely to the change of some of the old fences to the wire fence which is now placed on both sides of the road. Wherever the board fences were the county was put to considerable expense in clearing a path through the drifts. It would be economy in the long run to have all road fences constructed of wire.
